Heaven must have heard my prayer, darlin'
And sent you down to my world
You brought me peace and love when I was lonely
You're an angel disguised as a girl

You are everything I prayed for
Sweet and true to me is what you are
One like you could only come from Heaven
You're an angel disguised as a girl

You are everything I prayed for
Sweet and true to me is what you are
One like you could only come from Heaven
You're an angel disguised as a girl
You're an angel disguised as a girl
