There'll be greener pastures

Across that border line

We'll see new horizons, my darlin'

Far beyond the great divide

Pools of clear blue waters

Star light in the sky

You'll be mine forever, my darlin'

Far beyond the great divide

Somewhere in the distance

Northern lights will shine

You'll be there beside me, my darlin'

Far beyond the great divide

You'll be mine forever, my darlin'

Far beyond the great divide
