Marty Stuart
"I Run To You"

I run to you when I'm lonely, I run to you when I'm
feeling blue
Each step I take, leads me to you only
When I need love, I run to you.

This world, is sometimes cold and hard to bear
What would I do, sweetheart, if you weren't there
When things go wrong, and my dreams fall apart
You lift me up, you touch my heart.

I run to you when I'm lonely, I run to you when I'm
feeling blue
Each step I take, leads me to you only
When I need love, I run to you.

No one else, in this world, could take your place
I feel the love, in your embrace
And I long in my heart, for you to feel, eternally
My love is real

I run to you when I'm lonely, I run to you when I'm
feeling blue
Each step I take, leads me to you only
When I need love, I run to you.
When I need love, I run to you.
