Written by Marty Stuart

There are some misconceptions about where I'm a
comin' from
Rhinestones and a hairdo, but have you all heard my
songs
I'm an overnight sensation, I guess the joke's on me
Breakin' new ground for the future, meanwhile
Let there be country

I come from Mississippi, now what's country than that
Hit the ground a runnin' thanks to Lester Flatt
Now the old man had a saying about the way things
oughta be
Boy, as long as you breathe
Let there be country

And there ain't nothin' I like better than my Hot Hillbilly
Band
Travelin' cross the country shaking hard working hands
Paying up our dues, we don't want it if it's free
Just let the music play and
Let there be country

There finally comes a time you've got to pass the music
on
Changing of the guard and the new blood keeps it
strong
Well, I love the masters who gave advise to me
They gave me mountains to move, meanwhile
Let there be country

And there ain't nothin' I like better than my Hot Hillbilly
Band
Travelin' cross the country shaking hard working hands
Paying up our dues, we don't want it if it's free
Just let the music play and
Let there be country
Let there be country
