Written by Butch Carr and Russ Zavitsan

When you said it's over, I said it's not for me

When you said to forget you, I said when will that be

When that day comes, well they'll bury me

That's when you'll know it's over

That's when you'll know it's over

When I don't think of you all day every day

When I close my eyes and sleep comes right away

When you're not the first thing on my mind when I wake

That's when you'll know it's over

That's when you'll know it's over

You thought it would never end

When you broke my heart

But baby for me, that was only the start

Of this burning pain and there's no end in sight

So you've got to realize

It won't be over til it's over

When I don't see my past with you everywhere

When I see my future, without you there

When I see you with him and I don't care

That's when you'll know it's over

That's when you'll know it's over
