When I was a young man I thought I knew everything  
But I didn't know nothing, till I found you  
I used to get around some, I thought I'd seen  
everything  
But I hadn't seen nothing, till I found you

Till I found you there was no light  
Nothing ever worked out right  
Baby it's true, till I found you

Everybody's searching, they're trying to find  
something  
But I don't need nothin', now I've found you  
'Cause you're the only one love, the only one I'm sure  
of  
And all I want is your love, now that I found you

Till I found you there was no light  
Nothing ever worked out right  
Baby it's true, till I found you  
Baby it's true, till I found
