While on this earth, Jesus did a lot of talkin'  
He proved it in His words and in His walkin'  
Well, He was not a man of this world's design  
I'm here to tell you, friends, He was one of a kind  
He gave us many gifts, gifts from above  
But the greatest of these, don't you know is love?

Way down  
(Way down in the bottom)  
Way down  
(Way down in the bottom)  
Way down  
(Way down in the bottom)

You can find the love of Jesus  
In the bottom of your heart

Playin' it easy everyday you get discouraged  
Ah, sometimes you wanna turn and run, hide and worry  
But don't be like the man who ran all his life  
He never let the love of Heaven's light shine down  
Around him and show him the key to peace, joy and  
eternity

Way down  
(Way down in the bottom)  
Way down  
(Way down in the bottom)  
Way down  
(Way down in the bottom)

You can find the love of Jesus  
In the bottom of your heart

When on that final Judgment Day  
When I'm called up from out of the grave  
And I'm standin' with the angels up in the sky  
With Jesus and the Father side by side

I wanna hear Him say, "Job well done  
Welcome home, my child, your race is run  
You did some things to be proud of

But the greatest of these was when you showed love"

Way down  
(Way down in the bottom)  
Way down  
(Way down in the bottom)  
Way down  
(Way down in the bottom)

You can find the love of Jesus  
In the bottom of your heart

Way down  
(Way down in the bottom)  
Way down  
(Way down in the bottom)  
Way down  
(Way down in the bottom)

You can find the love of Jesus  
In the bottom of your heart  
In the bottom of your heart  
In the bottom of your heart
