"Forget The Radio"

Visit "[Forget The Radio](#)" on MotoLyrics.com

Switch on your amplifier
And put a record on
Lay back on your pillow
And hear your favorite song
Feel the music breathe
And sing the melody
Read the sleeve notes through
What the musicians do
And when you've found the groove
Or if the lyrics soothe
Concentrate and listen really close

Forget the radio
Send the DJ home
You're better on your own
Forget the radio

All my favorite records
I never see or hear
And here's the plague of zombies
For power and career
Andy Partridge, Robert Wyatt
You hear it you buy it
The tail seems to wag the dog
The music's thick, lost in the fog
Without analysis
This is all we wish
Image kills the qualities below
