[Lyrics: Daniel Mongrain]

"Are you aware of your existence?  
And of the reason for it?"

Tear me out of this  
Forever lost world  
Between time and space  
Tear me out of these  
Realms where life's  
Eternal for those  
Who seize it

Surrounded by lost souls  
Paralyzed existence  
For those whose  
Life is a failure  
Who are a failure to life

Endless vortex  
Towards erasing destiny  
Endless vortex  
Erasing my destiny  
The flame died away

Where am I here and now?  
Why was I not  
And never will?
