[Lyrics: Francois Mongrain]

"....System overload ... Prepare to disinfect your soul."

Parasites intrusions  
Virulent Infections  
Abnormal reactions  
Fatal error, Disconnection

Overwriting process  
Formating in progress  
Deleting the data  
Neuron after neuron

Retry? Abort? Ignore? [2x]

*Rebuild, restore the life I hacked  
Reboot, Restart the life I asked*

*Remove the crust  
Remove the rust  
Remove the mask  
Forget the past*

[Lead: Daniel Mongrain]

*Remove the mask, Remove the dust, Forget the past  
Ravaged is the cortex  
Panicked and distressed  
Instinctive reflex  
Sudden urge to forget*

*Illegal operations  
Illogical solutions  
Existential problems  
Shutting down the system*
