"Danger Heartbreak Ahead"

When give you more than you get, you're in danger
You may find that you're in love with a stranger
But who knows what evil lurks within the hearts of men
It's vanity, insanity, to play when you can't win
When you find that you're losing it's time to get on
moving
Cause there's danger and heartbreak dead ahead

It only takes one second girl to learn
That playing with fire will get you burned
Now girl don't you be foolish
They say that love is blind
But it's clear as a highway sign
That there's danger and heartbreak dead ahead

Heartbreak dead ahead
Read the sign girl
You'd better mind girl
There's danger and heartbreak dead ahead

Watch your guiding star
Start cranking up your heart
Listen to me girl
There's nothing to be gained
Don't keep going on in vain

Cause there's danger and heartbreak dead ahead
I said there's danger
I said there's dangerM
