Wait for me I said,
I'm as good as getting old
Like the rest
She says
I'm not getting any younger
Wait for me I say
This is as good as getting old like the rest
She says
I'm not getting any younger

Wait I think I figured it out
And I've reached the same conclusion myself, yeah
myself
I'm not getting any younger.
And the worst, worst part is that you're throwing it away
By waiting, yes you're throwing it away by waiting, by
waiting.

I'm not getting any younger (wait)
I'm not getting any younger (wait)
And as far as I can see (wait)
I'm not getting any younger (getting any younger)
I'm not getting any younger (getting any younger)
I'm not getting any younger.
