When did you love me  
I want to know the truth  
It's never hard to get it up for you  
Why did you have it and is it all the same  
Oh my sweet darling did you forget your name  
oh youoooo call it a thrill  
I never knew, and then you never will  
Oh one big mistake now I see  
I started off thinking that you belonged to me  
Cold blooded lovers waiting for the night  
Exploring my treasure, got me so uptight  
Your fault that I'm  
Feeling all insane  
Once we were happy  
And then the devil came  
Oh baby, oh baby  
First you make believe your mine  
Oh babe, oh baby  
Then you make me feel like dying. Ooh ooh  
Once upon a time you said I set your soul on fire  
I called you my honey  
You were my one desire  
I let you nestle too deep within my soul  
I can't believe I let you take control  
Oh my sweet baby don't wait too late  
Tell me you love me and cure my heart ache  
I never thought I'd be put in this squeeze  
Your trying to bring me to my bended knee  
Don't start buggin'  
Don't criticize  
Folks that love you  
Right before your eyes  
You stopped me  
Got to let you go  
Got to be heard  
Got to love you so  
Got to give you some  
Just before you leave  
Got to feed my fire

Uh ah, uh ah... [Ad-lib]

Ok let me hear that back... [Skat ad-lib]  
C'mon ya'll lets go... Whooooo

Come on sweet darlin' you say you don't care  
Dance all your heart aches far away from here  
You used to be so real  
Ah I used to be your only thrill baby  
Ah it used to be so real  
You never loved me and you never will  
But I'll always love you cause that's the way I feel  
And we just can't help it cause that's the way it is  
So let's be happy  
Fly 'n be happy  
Love 'n be happy  
Dance, whooooo  
Oh let's be happy  
Let's laugh 'n be happy  
Let's live 'n be happy  
Dance, whoooo  
For life is happy  
And love is happy  
To sing is happy  
Dance, whoooo  
Let's be happy  
Let's laugh 'n be happy  
Let's love 'n be happy  
Dance, whoooo

Keep on rising higher baby and you'll stay happy  
Gotta stay happy  
Happy  
Oh Baby...

Got to pray and meditate  
Got to pray and meditate  
Havin' a love party  
Got to pray and meditate  
Havin' a love party

Let's love 'n be happy  
Oh Life is happy  
And love is happy  
Live 'n be happy  
Dance
