Cry, cry, cry, cry, cry, cry, cry
oh, how i've cried...

I won't cry anymore
now that you've left me, baby
i won't cry anymore
now that you've gone
i have shed a million tears
since we've been apart
but tears can never mend
my broken heart, my broken heart again

I won't cry no more
i'll just forget you, darling, i'll just forget you , girl
i am closing the door on all my memories
you don't love me no more
though you're the one love, baby
that my heart & soul is longin' for
this is goodbye
i won't cry anymore

darling, i won't cry no more.
