To me, you're extra special darling
And the thrill I feel is real and oh, so good
So when you say you love me, I believe you girl
It's not what we say but what we really do
You got to understand darling
The world's not for long baby
There's only time for praying
And singing, and having a love party
You've gotta check out the tires baby
Cause what we need is a love explosion
No time to wait, cause gotta pray and meditate
You've gotta check out the tires baby
Cause what we need is a love explosion
No time to wait, cause gotta pray

Now we're going miles and miles through the known
danger
Revelations prophecies nearly fulfilled
We are blessed to experience the changing world
So let's love before your fate is closed and sealed
Understand darling, the world is not for long baby
There's only time for praying and singing
And having a love party
You've gotta check out the tires baby
Cause what we need is a love explosion
No time to wait, cause gotta pray and meditate
You've gotta check out the tires baby
Cause what we need is a love explosion
No time to wait, cause gotta pray.
