### "Love Party"

Visit "[Love Party](#)" on [MotoLyrics.com](http://MotoLyrics.com)

To me you're extra-special-mellow  
& the thrill i feel is real & oh, so good  
so when you say you love me, i really believe you, girl  
for it's what you say & what you really do

oh, you've got to understand, darling  
the world is not for long, baby  
there's only time for singing & praying  
& having a love party  
you've got to check out the times, baby  
'cause what we need is a love explosion  
we don't have no time to waste  
got to pray, whoo

baby, your life & mine is groovin' on the danger  
Revelations prophecy's nearly fulfilled  
we are blessed to experience a changing world  
so let's love before our fate is closed & sealed

you've got to understand, baby (we don't have the time  
to waste)  
the world is not for long (got to pray & meditate)  
there's only time for singing & praying (we don't have  
the time to waste)  
& having a love party (got to pray & meditate)  
go check out the times, baby (we don't have the time to  
waste)  
what we need is a love explosion (got to pray &  
meditate)  
we don't have no time to waste (we don't have the time  
to waste)  
got to pray & meditate (got to pray & meditate)

on the birdies & the bees  
& the flowers & the trees  
& the fishes in the rivers  
& on all the things He give us  
on your body in His image  
& your power with no limits  
on your heart & your soul  
& your purpose & your goals

on your reasons & your rhymes  
& your seasons & your times  
on your family & your Bible  
& your knowledge of survival  
meditation deep within  
that's the way it begins  
baby, it begins  
baby, it begins (aww yeah!)

To me you're really extra-special-mellow, baby  
oh, & the thrill i feel is real & oh, so good, baby  
so when you say you love me, i believe you, baby  
& it's good to party, fun to party with you, baby  
To me you're extra-special-mellow, baby  
& the thrill i feel is real & oh, so good, baby  
mmm, so when the party's over, let's go create some  
loving, baby

whoa  
no time, baby (got to pray & meditate)  
fooling around  
let there be peace & love (got to pray & meditate)  
aww, baby, come here, come here, come here, darling  
ohh, we need love (got to pray & meditate)  
love explosion, ohh, darling  
mmm, come here, come here, come here, baby (got to  
pray & meditate)
