Sometimes it rains in the midst of your parade  
and the hard times come after you've had a great day  
for with every test there's a time and a season  
and with every trial there is reason  
sometimes you're hurting there's a pain deep within  
seems like the more you pray, that thing just wont will  
never end  
just have patience  
when you're weak say i'm strong  
but this is a part of life's journey  
keep the faith and prayer's on

in everything give thanks  
lift your hands and give thanks  
for everything's working out for your good  
Even when things dont look like they should  
in everything give thanks  
lift your hands and give thanks  
for if you will..

Sometimes it's hard and your ways seem dim  
just keep on pressing on put your trust in the Him  
Learn to lay your side every weight it's on  
he's there beside you, for in time he will come forth for  
he is gonna bless you

in everything give thanks  
lift your hands and give thanks  
for everything's working out for your good  
Even when things dont look like they should  
in everything give thanks  
for the lord he's good  
he's kind.. he's good  
and his mercy is good forever  
he's kind  
GIVE THANKS
