Verse 1:

My life is a testimony,
My heart is an open vessel
My will is the part that yields to your will
My walk is the way you lead
My talk is the words you feed
My praise is the sweetest sound to your ear

Chorus:

Hallelujah (x3)
We worship you,
We worship you today
[X2]

Verse 2:

I live cause you have allowed
I give cause you show me how
I'm here as a testimony unto you
There's no place I'd rather be
There's no other god for me
There's no other name I give all the praise
(So we sing yeah)

[Chorus]

Bridge:

We worship, we worship, we worship
We worship, we worship, we worship
We worship, we worship, we worship
We worship you, we worship you today

We worship, we worship, we worship
We worship, we worship, we worship
We worship, we worship, we worship
We worship you, we worship you today
(Come on come on come on we worship)

[Chorus]

(He is here, he is here here)
(He's breathing in this place)
