

Mary Black "Diamond Days"

Visit "[Diamond Days](#)" on MotoLyrics.com

I have written this song
For you to take with you
When you go away
Something to sing and slowly swing to
On your colder days
I have made a start
With a verse and a chorus
The rest I leave to you
And when next I see your smiling face
We might sing it right through

Chorus

I'll be your sweetheart always
And I'll love the memories of the diamond days
I'll keep a candle burning
'till we sing again the diamond days

If the words don't rhyme
Then I will forgive you
That won't be the crime
But the staring space
Upon the page
That might look like mine
I have made a start
With a verse and a chorus
The rest I'll leave to you
And when next I see your smiling face
We might sing it right through

Chorus
