I

Seems like the morning lights hereafter  
Can weigh much more than you can hold  
Somehow tomorrow's lines and laughter  
Can turn around and look so cold

li

And you can hang your head in sorrow  
The restless nights when troubles come  
And stand alone and face tomorrow  
And know not why but what has been undone

Chorus

How you gonna hold on to that greatest dream of all?  
How you gonna hold on when you need to fall?

lii

I know it breaks your heart to wonder  
What it was he'd ever said or done  
There'll be no sleep amongst the thunder  
There'll be silence but no peace after he's gone

Chorus & repeat iii
