Was it a light only she could see?
A gypsy's spell, a mystery
Something to cause our girl to roam

Was it a song only she could hear?
Whispering charms in her ears
Causing her to leave our happy home

Guess, the light of the moon is all we've got to go on
Guess, we're never gonna know and she's not telling
no one

Luna's gone, she's gone away
All day long I call her name, Luna's gone

There wasn't a sign of wanderlust
A quarrel, a breach of faith or trust
Nothing to give us one thin clue

Her eyes like the moon in a heart-shaped face
Astonishing speed, amazing grace
Little wild child, we loved so true

Guess, the wind in the trees is all she left behind her
Guess, it's part of the plan to know we'll never find her

Luna's gone, she's gone away
All day long I call her name, Luna's gone

The end has come, verse and chapter
I'll miss that girl forever after
She left us now, the way she came
No amount of love could tame her, free as the wind
that blows

Guess, she couldn't resist the lure of the open spaces
You won't find her in Miami Beach or Vegas

Luna's gone, she's gone away
All day long I call her name
Luna's gone, she's gone away
All day long I call her name

Luna's gone, she's gone away
All day long I call her name, Luna's gone
