[1st verse]

I know what it feels like  
To think that no one cares  
I know what it seems like  
To feel like no one's there  
But there is a light  
Shining so bright  
And it will be alright  
So, no matter what  
I will be by your side

When it's scary to look ahead  
And scary to look back  
Just look by your side  
And that's where I'll be at  
God is never far behind  
That's right  
And he'll wipe away the tears you cried  
And with love  
I will be by your side

[Chorus]

I will be there  
Even when they're all laughing  
I will be there  
Even when things get rough  
You never fail  
If you just try  
And know this  
I will be by your side

[2nd verse]

It's easy to feel like  
When they want you to lose  
And when they start a fight  
You have the choice to choose  
You're not a chicken  
But that's the thing is  
Bad ones talk like  
When you do something right  
But no matter what, anyway

I will still be by your side

[Chorus]

I will be there  
Even when they're all laughing  
I will be there  
Even when things gets rough  
You never fail  
If you just try  
And know this  
I will be by your side  
(I will be there)  
Even when they're all laughing  
(I will be there)  
Even when things gets rough  
(I will be there)  
You never fail  
If you just try  
(I will be there)  
And know this  
I will be by your side

[Chorus]

I will be there  
Even when they're all laughing  
I will be there  
Even when things gets rough  
You never fail  
If you just try  
And know this  
I will be by your side  
I will be by your side
