#### Verse 1

Here we are  
Standing on the bridge  
Like the waterfall  
And so much to give

We look up to the sky  
A cloud that looks like a cross  
God is with us no matter what  
He's the one can make us strong

We pray  
We wait  
Well see  
Someday  
He just gotta believe

#### Chours

The new beginning  
We see the light shining  
Lets not set here  
And not even try  
We should get up  
Can't you feel the love  
If we try, god will help us the rest of the way  
One step at a time is what we should take

#### Verse 2

We were in one place  
But we are the church  
People may say things  
But there will be an open door

An open door to the light  
It is our chance to take  
Like the sparkles in our eyes  
God will forgive us of our mistakes

We pray  
We wait  
Well see

Someday  
But we just gotta believe

Chours  
The new beginning  
We see the light shining  
Lets not set here  
And not even try  
We should get up  
Can't you feel the love  
If we try, god will help us the rest of the way  
One step at a time is what we should take

Bridge  
One step at a time  
Is what we should take with God  
When they make the rain fall down  
It wont be raining for long  
The sun is shining  
On the moutain were climbing  
So lets see  
So lets wait  
Wait and see  
Wait and see

The new beginning  
We see the light shining  
Lets get up out here  
And lets try  
Try to live for God

Chours  
The new beginning  
We see the light shining  
Lets not set here  
And not even try  
We should get up  
Can't you feel the love  
If we try, god will help us the rest of the way  
One step at a time is what we should take
