Verse 1

I know a girl who reaches out
For a friend who is different
She wants to change from before
But she wants to find a way and help

It's true that she hurt before
But rememeber she's just a girl
That we all make mistakes
No one is to blame

Chours

It's alright
It's okay
God by your side
Through everyday
Through everyday
Everyday

Verse 2

People turned away from her
She was put out by actions
She needs her family and friends
But if they only understood

What all she's been through
With what she used to do
When you judge or neglect
You can't take back what's been said

Chours

It's alright
It's okay
God is by your side
Through everyday
Through everyday
Everyday

Bridge

She didn't deserve pain
And she didndt deserve a first stone

Even though she made mistakes
She was left out in the cold
Then alone

Chours
It's alright
It's okay
God is by your side
Through everyday
Through everyday

It's alright
It's okay
God by your side
Through everyday
Through everyday

It's alright
It's okay
God is by your side
Through everyday
Through everyday
Everyday

Nobody wants to hurt
Everyday
She wants a cure
Everyday
Be different than before

Through everyday
Through everyday god is there
God is there
