Oh, don't you wanna be with me

[Chorus]

Can't you see what I've been going through
Cause I wanna be with you
(Baby, don't you wanna be with me?)
Changes I've been going through
Cause I wanna be with you

[Verse 1]

It's all gone
The love I thought we shared is gone away
Maybe it's better that we didn't stay together

Seems like we've gone through this a thousand times
Maybe I still don't have the answer
Why can't you tell me why we couldn't be together

[Chorus]

[Verse 2]

See I didn't want to ever hold you tight
But still I need love and affection
Was it that hard for you to show me some attention

Tell me baby, did I push you away
Was I coming on to strong for you
Why can't you tell me, tell me what am I supposed to do
Oh can't you see

[Chorus]

[Chorus repeated and ad-libs until fade]
