Once he's in he gets so comfortable  
Never wanting to commit for sure  
Always lyin' 'bout the girl next door  
That's how all these things begin

You let your guard down and he does you in  
All your secrets he's been holding that's in  
To throw back at you when it benefits him  
So he can go and play with all the chickens

So tell me when the lying and the front begun  
Why you playing with me cause it's not fun  
How could it be two if I'm your only one  
That's how crazy this game is

Working so hard to complete myself  
Never thinkin' bout the love that's on the shelf  
Livin' our life like there is no one else  
That's how crazy this game is

Who you messin' with with all the games you play  
Oh, you didn't know my name was Mary J  
All the chicks you hit I heard they all look slave  
Tryin' to gas me sayin' things have changed  
Now you're like the furthest thing from my brain  
Never thought I had to say it to you this way  
All the years I've been wit you  
Boy I feel so played  
Now I need to go and jump on my plane

Tell me when the lying and the front begun  
Why you playing with me cause it's not fun  
How could it be two if I'm your only one  
That's how crazy this game is

Working so hard to complete myself  
Never thinkin' bout the love that's on the shelf  
Livin' our life like there is no one else  
That's how crazy this game is

This is one thing I will not tolerate

I'm not  
For this  
Abusive  
Relation  
Conclusive  
Excusive  
For a evolution

You think  
With all  
The games  
It stops  
Possesive  
Obsession  
Expression

Tell me when the lying and the front begun  
Why you playing with me cause it's not fun  
How could it be two if I'm your only one  
That's how crazy this game is

Working so hard to complete myself  
Never thinkin' bout the love that's on the shelf  
Livin' our life like there is no one else  
That's how crazy this game is

That's how crazy this game is  
That's how crazy this game is....
