I can remember when we had, we had it all
You and I, You and I
You know, you know we had it all
You and I
Reminisce

[Verse 1]

I know that we've been here before
The candle light and you walking softly through my
door
Come on in my sweet. How have you been?
Your so nice but tonight we're gonna be more than just
friends
I recall the days and ways of love we made
I still feel the heat when we shared each other
Don't you feel the magic, the mystery's in the air
Lets go down to lover's lane with the love we shared

[Chorus]

Let's make the time tonight while the feelings right
Reminisce on the love we had
Let's make the time tonight while the feelings right
Reminisce on the love we had

[Verse 2]

I can see you standing there alone
Like an angel tryin' to find his way home
I don't remember how we fell apart
Here we are again, c'mon, right into my heart
I recall the days in ways of love we made
I still feel the heat when we shared each other
Don't you feel the magic, the mystery's in the air
Let's go down to lover's lane with the love we shared

[Chorus 1x]

[Bridge]

Make the time tonight, the feeling's oh so right
Reminisce on the love we had
Make the time tonight
Make the time tonight, the feeling's oh so right
Reminisce on the love we had

Make the time tonight

[Background]

Let's make the time tonight

Feeling is oh so right

Reminisce on the love we had

Make the time tonight

Let's make the time tonight

Feeling is oh so right

Reminisce on the love we had

Make the time tonight

Oh, baby, reminisce

I know we been here before

Some candle light and you walking softly through me
door

C'mon in my sweet

Tonight we're gonna be more than friends

Feelings right my, my. sweet baby, baby, baby

I can see you standing there like an angel

Oh boy, oh reminisce, reminisce on the love we had
