Come on, let's go
Mary J, Bad Boys collaboration, yeah
Or we won't start
[Incomprehensible]

Baby don't, don't go, you know I need you so
Sometimes my pride gets in the way
I say things I don't mean when I think you're hurting me
I love you more and more each day, each day

And I didn't, didn't mean to make you cry
I don't want, don't want you to say goodbye
I didn't, didn't mean to make you sad
You're the best love I've ever had

And nothin', nothin's gonna tear us apart
And for this, for this love we work so hard
So can we, can we try to work it out?
I'm yours, all yours without a doubt

I know that living with me can sometimes be unhappy
But I really need you in my life, yeah
'Cause every part of me you totally complete
Remember to make me your wife, please

And I didn't, didn't mean to make you cry
I don't want, don't want you to say goodbye
I didn't, didn't mean to make you sad
You're the best love I've ever had
Come on

And nothin', nothin's gonna tear us apart
And for this, for this love we work so hard
So can we, can we try to work it out?
I'm yours, all yours without a doubt
Yeah, yeah, yeah, yeah

I didn't, didn't mean to make you cry
I don't want, don't want you to say goodbye
I didn't, didn't mean to make you sad
You're the best love I've ever had

And nothin', nothin's gonna tear us apart
And for this, for this love we work so hard
So can we, can we try to work it out?
I'm yours, all yours without a doubt

I didn't, didn't mean to make you cry
I don't want, don't want you to say goodbye
I didn't, didn't mean to make you sad
You're the best love I've ever had

And nothin', nothin's gonna tear us apart
And for this, for this love we work so hard
So can we, can we try to work it out?
I'm yours, all yours without a doubt

We're only human, baby
We're gonna make mistakes
(Yes, we are)
I really need you to forgive me
(I need you to forgive me, baby, baby, baby)

Why can't we let this go?
I love you more than you know
(I love you, I love you, I love you)
I really need for you to forgive me
(Forgive me)

Queen in hip hop songs
