No more invisible, speechless, deaf and blind child
With neglected pleasures being addicted to denial
Floating through time gravitating towards a warm arm
With an appetite for the emptiness that promises, no
harm

No more uncontrollable eruptions of emotional
depression
A primal S.O.S. from the barren prison of selfless
expression
That only the guilty with innocent souls know
Buried in a social scar tissue of a defective ego

No more relentless sifting through bodies seeking self
Settling through competitive combat for what's left on
the shelf
A mad melee of supply and demand driven by a
gullible pride
That leads to sedating the you that suffocates inside

No more, forever no more because I've unshut my eyes
And the difference between God's word and man's will
was realized
Seeing opposed and parallel lives some liquid and
others frozen
Led me to never seek from man what God has chosen

Then the negative whispering subsided and the
panicking ceased
The undercurrent suppression of pent up terror was
released
As the mystery of the unknown manifested pristine
clear
A positive message of truth entered my ear

Now across my face is a brand new smile
With the newly revealed meaning of a destined child
A message of hope is being released from my heart
And I am overwhelmed with dedication to do my part

All I ever wanted was to be what as I once was,
unbounded

Somehow it got all twisted and before long sounded
As though life was a continuous connive, thrive, drive
Choking out the simple joy of just being alive

Now I am filled with love and I sing a love song
A song for yesterday, today, tomorrow and beyond
My new prayer is, thank you God for setting me free
And thank you God for giving me back me
