If you've been stressin you've been hurtin it's
gonna be alright
I know times get so hard that you can cry but not
tonight
I know just what you came for get up up on the dance
floor
Or where ever you are while the DJ's breakin it down

[Chorus]

Ain't no telling what we're gonna do
But I'm gonna breakthrough and take you
and take you where it feels so good
Ain't no telling what we're gonna do
But I'm gonna breakthrough and take you
and take you where it feels so good

All I wanna do is get in touch with you
To be real how you feel
Everybody goes through things sometimes
So let your mind just be free
Anything you wanna be, be
But whatever you do let this music get to you (get to
you)

[Chorus]

Ain't no telling what we're gonna do
But I'm gonna breakthrough and take you
and take you where it feels so good
Ain't no telling what we're gonna do
But I'm gonna breakthrough and take you
and take you where it feels so good

We gonna tear it up (we gonna tear it up)
All night listen till the morning light
Something that's gonna sooth your mind
Its gonna sooth your mind and make you feel so good
Baby let your body free (body be anything you wanna
be)

Just let go and you will see

[Rap]

Check it out
It's time to break through MJ gonna take you there
Get your hands in the air and get you a three step
Lil' somethin for the clubs and it feels so hood
Got the whole world sayin how she still so good
It's a gift god given I'm a ribbon in the sky
So fly I'ma ride like the queen I am
Pay homage mike check one, two one, two
Pop bottles get it crunk that's what we came to do
Get your back off the wall cause united we stand
together
We ball everybody up on the floor
Like de de ne de de ne de de ne
Get your ass on the floor lets go

[Chorus]

Ain't no telling what we're gonna do
But I'm gonna breakthrough and take you
and take you where it feels so good
Ain't no telling what we're gonna do
But I'm gonna breakthrough and take you
and take you where it feels so good

[Chorus]

Ain't no telling what we're gonna do
But I'm gonna breakthrough and take you
and take you where it feels so good
Ain't no telling what we're gonna do
But I'm gonna breakthrough and take you
and take you where it feels so good
