Chorus:

All those pretty memories
I know you can hear me now
For the record I love you
(Repeat)

When I found out that you were leaving me
I couldn't sleep thinking about
All the things that we've been through
Now all I want to do is tell you
That I miss you so much
(You know I really really miss you)

Chorus

Now that I'm on my own
I know that in time I'll find somebody new
(Who'll treat me better than you)
So now that I'm all alone without you
But I still love you
You know I'll never live without you

Chorus

I wish you'd change your ways soon enough
So we can be together
You just don't understand the word
