# "I Never Wanna Live Without You"

Visit "[I Never Wanna Live Without You](#)" on MotoLyrics.com

Can't live without you  
Can't live without you, baby  
Can't live without you

I never wanna live without you baby  
I wanna be your lady  
Love is so amazing  
I never wanna live without you baby  
I wanna be your lady  
Love is so amazing

What is this feeling?  
I can't sleep at night  
Just thinking 'bout being without you  
Work 'til I'm tired and I can't eat a bite  
'Cause I know someday you're going away

I never wanna live without you baby  
I wanna be your lady  
Love is so amazing  
I never wanna live without you baby  
I wanna be your lady  
Love is so amazing

I have the man that I want  
I prayed so many nights for you  
And then my prayers came true  
Now that I have the answer  
I'll be wishing on a star  
I'll follow you where you are

I don't wanna be alone  
So baby let's stay together  
Through any kind of weather, yeah  
Let's make a happy home  
Because you mean so much to me baby  
That's why I wanna be your lady

I never wanna live without you baby  
I wanna be your lady  
Love is so amazing  
I never wanna live without you baby

I wanna be your lady  
Love is so amazing

I never wanna live without you baby  
I wanna be your lady  
Love is so amazing  
I never wanna live without you baby  
I wanna be your lady  
Love is so amazing

I don't wanna be alone  
So baby let's stay together  
Through any kind of weather  
Let's make this a happy home  
Because you mean so much to me baby  
That's why I wanna be your lady

I never wanna live without you baby  
I wanna be your lady  
Love is so amazing  
I never wanna live without you baby  
I wanna be your lady  
Love is so amazing

Baby, won't you stay with me a little while?  
Baby, won't you stay with me a little while? Don't leave  
Baby, won't you stay with me a little while?  
Baby, won't you stay with me a little while? Don't leave  
Baby, won't you stay with me a little while?  
Baby, won't you stay with me a little while? Don't leave

Won't you stay with me?  
I need you, oh, I need you  
I need your warm embrace  
I need your sweet, sweet taste, baby  
Come on, come on  
Stay with me, stay, stay

Baby, won't you stay with me a little while? Don't leave  
Baby, won't you stay with me a little while?  
Baby, won't you stay with me a little while? Don't leave  
Baby, won't you stay with me a little while?
