I'm the only woman you need

I'm the only woman you need
Only one you need, take me
Don't be a fool like you have me
If you wanna be happy

I'm the only woman you need
All you have to do is trust me
Never have to be sad again
'Cause I'll always be your friend

I gave my heart to you
What more can I do to show you how much I care
About you and all the little things you do
But see, all I ask is that you make me feel like I'm
somebody
All day, all day, everyday, give your lovin' away, whoa

Baby, can't you see if we should part
That all my days of loving you
You know they weren't that hard
That's why I'm saying I got to be strong

I'm the only woman you need
Only one you need, take me
Don't be a fool like you have me
If you wanna be happy

I'm the only woman you need
All you have to do is trust me
Never have to be sad again
'Cause I'll always be your friend

I know that I was wrong for all that carrying on
But are you gonna hold this against me for life
You know all I wanted to do is be your wife
And make you happy

I'm the only woman you need
Only one you need, take me
Don't be a fool like you have me

If you wanna be happy

I'm the only woman you need
All you have to do is trust me
Never have to be sad again
'Cause I'll always be your friend

If you really don't want me
I wish you'd let me know and I will go so far away
I can not stay if you don't want me to
I can't be a fool for you no more

You see I tried, tried to please you
The best way I know how, and I never deceived you
If only we could trust each other, stop thinking foolish
things
I don't want another lover

I'm the only woman you need
Only one you need, take me
Don't be a fool like you have me
If you wanna be happy

I'm the only woman you need
All you have to do is trust me
Never have to be sad again
'Cause I'll always be your friend

I'm the only woman you need
Only one you need, take me
Don't be a fool like you have me
If you wanna be happy

I'm the only woman you need
All you have to do is trust me
Never have to be sad again
'Cause I'll always be your friend
