I won't love you anyway

Look how the tables turn

You're at a loss of word

Just let it go

It's been too long for us to let it burn

I know you're mad right now

But we've gotta talk this out

There are a worst that's what we said

So there's no wakin' out

I can be drunk

You can be bite

Just couldn't find cause it is weren't the fight

Whatever it's gonna take

We gon' try

I've got your heart

And you've got mine

So there's no saying goodbye

No matter how we

Work it out, work it out, work it out

Cause love is irreversible versible versible

No matter how hard we play

Have to say no reply

You can go back in time

Cause love is irreversible versible versible

I get emotional

Sometimes you treat me cold

Love is still here won't disappear can let it take us roll

We may did lose our way

When we communicate

Cannot been come when you and me

We are of forever faith

I've got your heart
And you've got mine
So there's no saying goodbye

No matter how we working out working out working out
Cause love is irreversible versible versible
How hard we try
There is no rewind
We can't go back in time
Cause love is irreversible versible versible

I won't love you anyway anyway anyway
I won't love you anytime any day
So let's try to make it right

No matter how we working out working out working out
Cause love is irreversible versible versible
No matter how hard we play
Have to say no reply
You can go back in time
Cause love is irreversible versible versible
