I, I, I, I, I, oh, I can remember when
We had it all
You and I
Yeah

Let's make the time tonight
The feelin' is oh so right
Reminisce on the love we had
Make the time tonight

Let's make the time tonight
The feelin' is oh so right
Reminisce on the love we had
Make the time tonight

Let's make the time tonight
The feelin' is oh so right
Reminisce on the love we had
Make the time tonight

Let's make the time tonight
The feelin' is oh so right
Reminisce on the love we had
Make the time tonight

I know that we've been here before
The candle light and you walking softly through my
door
Come on in my sweet, how have you been?
Your so nice but tonight, we're gonna be more than just
friends

I recall the days and ways of love we made
I still feel the heat when we shared each other
Don't you feel the magic? The mystery's in the air
Let's go down to lover's lane with the love that we
shared

Let's make the time tonight
While the feelings right
Reminisce on the love we had

Let's make the time tonight
While the feelings right
Reminisce on the love we had

I can see you standing there alone like an angel
Tryin' to find his way home
I don't remember, how we fell apart
Here we are again, come on, right into my heart

I recall the days in ways of love we made
I still feel the heat when we shared each other
Don't you feel the magic? The mystery's in the air
Let's go down to lover's lane with the love we shared

Let's make the time tonight
While the feeling's right
Reminisce on the love we had

Let's make the time tonight
While the feeling's right
Reminisce on the love we had

[Incomprehensible]

Let's make the time tonight
Feelin' is oh so right
Reminisce on the love we had
Make the time tonight

Let's make the time tonight
The feelin' is oh so right
Reminisce on the love we had
Make the time tonight

Let's make the time tonight
While the feelings right
Reminisce on the love we had

Let's make the time tonight
While the feelings right
Reminisce on the love we had

Let's make the time tonight
While the feelings right
Reminisce on the love we had
