Mm, mm, mm, mm  
Who I am? Ah yeah  
Your star light, I am, yeah

I am your star for life, entertaining for you  
And I'm willing to do anythang you want to baby I'll  
shine so bright  
(I'll shine so bright)  
When you look up at me you will understand we were  
meant to be

I am your song ready to be sung  
And the name of this tune is I'm your number 1  
Whenever you need me, just call on my name  
And I'll be there in a hurry  
And on that you can depend and never worry.

I am your star for life, entertaining for you  
And I'm willing to do anythang you want to baby I'll  
shine so bright  
(I'll shine so bright)  
When you look up at me you will understand we were  
meant to be

You've drawn me to you mind, body and soul  
And what we've got oh will never grow old  
In my quiet time I feel, feel you wanting me  
So I let it be, I'll let it be, let it be

I am your star for life, entertaining for you  
And I'm willing to do anythang you want to baby I'll  
shine so bright  
(I'll shine so bright)  
When you look up at me you will understand we were  
meant to be

I am your star for life, entertaining for you  
And I'm willing to do anythang you want to baby I'll  
shine so bright  
(I'll shine so bright)  
When you look up at me you will understand we were  
meant to be

Happy days, are here again, 'cause it look like I've  
been blessed  
I've been blessed with my best friend, to have and to  
hold you  
For the rest of my life, so I gotta give in, I give in to  
what feels right

I am your star for life, entertaining for you  
And I'm willing to do anythang you want to baby I'll  
shine so bright  
(I'll shine so bright)  
When you look up at me you will understand we were  
meant to be

I am your star for life, entertaining for you  
And I'm willing to do anythang you want to baby I'll  
shine so bright  
(I'll shine so bright)  
When you look up at me you will understand we were  
meant to be

I am your star for life, entertaining for you  
And I'm willing to do anythang you want to baby I'll  
shine so bright  
(I'll shine so bright)  
When you look up at me you will understand we were  
meant to be
