Mmm, mmm  
Oh, you must believe, you must believe  
Hey yeah

You gotta believe  
You gotta believe in me, baby  
That I won't never hurt you

You gotta believe  
You gotta believe in me, baby  
That I won't never hurt you

I told you once before  
That I love you and I need you  
But let me tell you once again  
You were my closest friend

I'll never leave you  
So hold me tight all through the night  
Caress me with your tender care  
Anytime or anywhere

Anytime, anywhere  
I will go with you anywhere  
Won't you trust in me, baby  
Stay with me

Till death do us part  
You'll always be right in my heart  
Won't you please stay with me  
Baby, please believe in me

You gotta believe  
You gotta believe in me, baby  
That I won't never hurt you

You gotta believe  
You gotta believe in me, baby  
That Mary, Mary, I hear you loud and clear

Why don't you believe in me?  
Tell me why you don't see

That you can put your trust in me  
And let me lead the way

Please baby, take my hand  
I don't need another man  
But if you wanna hold on tight  
You can not be afraid

You gotta believe  
You gotta believe in me, baby  
That I won't never hurt you

You gotta believe  
You gotta believe in me, baby  
That I won't never hurt you

Take me boy by my hand  
Let me make you understand  
That I can never let you down  
Baby, just believe in me

Take me boy by my hand  
Let me make you understand  
That I can never let you down  
Baby, just believe in me

You gotta believe  
You gotta believe in me, baby  
That I won't never hurt you

You gotta believe  
You gotta believe in me, baby  
That I won't never hurt you

You gotta believe  
You gotta believe in me, baby  
That I won't never hurt you

You gotta believe  
You gotta believe in me, baby  
That I won't never hurt you

You gotta believe  
You gotta believe in me, baby  
That I won't never hurt you
