Break of day's, up ahead where I'm going
The glass is raised 'cause they can't keep me down
You strike the drum, wake the dead, bring the children
You tell your friends that the sea divides

In the trees, in the fields, in the meadows
What's the sound from the underground?
They buried me but I just keep on standing
You're like the wind that gonna rise again

You'll never see it coming baby
But can't you hear it call?
We're gonna keep it rolling honey
Here we go on and on and on and on

You'll never see it coming baby
But can't you hear it call?
We're gonna keep it rolling honey
Here we go on and on and on and on

On my knees are saying prayers to the widows
We're dancing free with these gypsy eyes
You see the streams daughter, be like the rivers
You flow with me between earth and sky

They'll never see it coming baby
But can't you hear it call?
We're gonna keep it rolling honey
Here we go on and on and on and on

You'll never see it coming baby
But can't you hear it call?
We're gonna keep it rolling honey
Here we go on and on and on and on

If that's the way, only way to be
If that's the way, only way to be
If that's the way, only way to be
Then that's the way, only way to be, hey

If that's the way, only way to be
If that's the way, only way to be

If that's the way, only way to be
And we go on and on and on and on

If that's the way, only way to be
If that's the way, only way to be
If that's the way, only way to be
Then that's the way, only way to be
