I remember this one sunday in october.  
You called me up and told me it was over.  
I never meant to make much out of it anyway.  
I never loved you more than I did that day.

I would say that it's okay. (4x)

It's been so long since we were at this club in  
amsterdam.  
I'll never forget the time I kissed you over and over  
again.  
You said it's not working this way.  
I always thought it was.  
You said you were gonna change your life  
And you started with me.

I would say that it's okay. (8x)
