Here we go once again
And this time around
I won't fight the end
You and I had a time
Divided up by tragedy left behind
CHORUS
And there's an empty room in my heart
I'll keep here
And your memory will
Always be safe there
One dream I will never sell
But this time around my friend
I wish you well
Memories come back at night
Take me back
To a better time in mind
Afternoons in the yard
Safe and warm
Late afternoon call from home
And now I'm home
CHORUS
