Visit "[Shiny Gun](#)" on MotoLyrics.com

When you hold you hold on to all you know
If you fold you let go of all you own
And when you disconnect head from neck and just let
Your heart decide what's the best thing to do
It's on you

Don't let them bring you down

Outer space awaits if you're on the run
'cause this is no place to be if you don't have a gun
You can fly away you'll be the only one
'cause I don't back down or run

So drop what you believe run or stay with me
Watch the fear will spread so contagiously
And once you find your place there above the fray
It will come and take every word you say
So make your way
And don't let them bring you down

Outer space awaits if you're on the run
'cause this is no place to be if you don't have a gun
You can fly away you'll be the only one
'cause I don't back down or run

Wear you heart on your sleeve
And your eyes are on me
Now tell me that you believe - in me

Outer space awaits if you're on the run
'cause this is no place to be if you don't have a gun
You can fly away you'll be the only one
'cause I don't back down or run
I don't back down or run
