"Everloving Boy"

Visit "[Everloving Boy](#)" on MotoLyrics.com

Everloving boy, I can see you're still in love with me
In love with me the same way you used to be
Time has never changed you, oh no

Everloving boy, I can tell because I know you well
You love me like you've loved me since the day we fell
Time has never changed you, oh no

Bridge:
We had a fight, but here tonight
We kissed again, we kissed & then
You caressed me the way I love
& I thank my lucky star above for you

Everloving boy, don't you know I've always loved you so
& that is why it makes me oh so glad to know
That time has never changed you, everloving boy

(instrumental)

(repeat verse 3)

He's my boy, pride & joy, that's why I call him
...& fade
