He came my way one fine day
He made me feel like his love was really real
Uh huh huh
& when I think of his sweet caress
My heart flies out in distress
Wo oh oh oh oh oh oh
How can I forget him? (How can I forget him?)
How can I forget him? (How can I forget him?)

He had that look (had that look)
That you read about in books (that you read about in books)
His charm & smile made me feel like a helpless child
Uh huh huh
& every time I hear his name
I wish I that had him back again
Wo oh oh oh oh oh oh
How can I forget him? (How can I forget him?)
How can I forget him? (How can I forget him?)

Who ever thought that a guy like him could hurt me?
(Hurt me, hurt me, hurt me)
That only happens to the other girls I know
Take my love & make me a slave & desert me (desert me)
What do I do? What do I say? Where do I go?

(instrumental)

I don't care what my girlfriends say
I never had a guy do me that way
Wo oh oh oh oh oh oh (x3)
Now tell me, how can I forget him? (How can I forget him?)
How can I forget him? (How can I forget him?)
You know he looks so good (How can I forget him?)
Now tell me, how can I forget him? (How can I forget him?)
...& fade
