I heard all about you way before I met you
From the other girls who knew you well
Heard about your talkin', your cool way of walkin'
& that no girl could quite resist your spell
They say you are a jive guy, nothin' but a playboy
You're just a jive guy, a kiss-&-run-away boy

Judy said she loved you, but you wouldn't be true
& you cheated when she wasn't around, yeah
All the girls I've talked to, even Shirley, she knew
That you're not the kind to settle down
They say you are a jive guy, a real heartbreaker
You're just a jive guy, a real troublemaker

There weren't many girls that you missed
& now you wanna add me to your list, 'cause...

Since the day you met me, you've been out to get me
Guess you thought I'd be an easy catch
But I've got news for you, boy, & a thing or 2, boy
Let me tell you that you've met your match
So just forget it, jive guy; hate to disappoint you
But forget it, jive guy, 'cause this girl doesn't want you

(repeat & fade):

So forget it, jive guy, hate to disappoint you
Forget it, jive guy, 'cause this girl doesn't want you
