Me & my baby, we have so much in common, you see
With me & my baby, there's together in whatever might
be
& we're so happy (happy happy) & we're so happy

Me & my baby, in each other we always confide
But quick decisions we never make before the 2 of us
decide
& we're so happy (happy happy) & we're so happy

A 60-40 love we don't have because we both give equal
share
Our love is no secret; we want everyone to know how
much we care
& we're so happy (happy happy) & we're so happy

Yeah yeah yeah, so happy (happy happy)

Ask anybody, & they will tell you what a complete
couple we are
& when we're together, he stands out like a shining
star
& we're so happy (happy happy) & we're so happy

(repeat & fade):
Me & my baby (baby baby) & we're so happy
