You're tellin' everybody that your heart is cold as ice,  
yes you are  
But you're just pretending so all the other girls will think  
twice, yeah

CHORUS:

But my mind's made up & I'm gonna get you  
& when I do boy, I'll never let you get away  
'Cause my mind's made up, boy, & I'm gonna get you

How can I convince you that this love I have is real?

Yeah

Every time we kiss you make believe you're made of  
steel, yes you do

(chorus)

(instrumental)

Born to this girl, it's your determined lovesick girl, yeah  
Is the hardest thing to do in the whole wide world, yes it  
is

(chorus, then repeat its last line & fade)
