(Say, say)

Hey, you set my soul on fire; your love shocked me like  
a real live wire

You set my soul on fire; a broken heart you inspired

You started my love well turned

From the storming in my heart, I felt a fire burning

Hey, you set my soul on fire; I'm hooked, you're my  
only desire

I often looked & caught you pleasin'

Dangerous things to me, with your eyes you were sayin'

Sayin' things like "That girl's a wonder

We can do a heart & take a live thunder"

Hey, you set my soul on fire; your love shocked me like  
a real live wire

Every minute of the hour, I can feel your power

What would my life be without you? Darling I will never  
doubt you

Please see me through, keep on lovin' you

Keep the love churnin' in a good lovin' fire

Hey, you set my soul on fire; your love shocked me like  
a real live wire

Sweet babe, I'm so glad; you're good at changin' my  
life when I felt so bad

You started my love well turned

From the storming in my heart, I felt a fire burning

Hey, you set my soul on fire; your love shocked me like  
a real live wire

(repeat & fade):

Hey, my soul is on fire
