You like the same things I like to do  
I tell you honey, it's really funny  
How much in common I have with you  
I'm certain, baby, no if or maybe  
We were tailor-made for each other  
So come on baby, let's get together  
'Cause we're just 2 of a kind  
Can't you see that we're just 2 of a kind

You like the places I like to go  
Your favorite color blue, well that's mine too  
You like your music sweet & slow  
Well that's a good sign 'cause that's my kind  
We're gonna get along, simply pray  
We'll make each other a perfect mate  
'Cause we're just 2 of a kind  
Can't you see that we're just 2 of a kind

A better catch would be hard to find  
If I should look all over the nation  
There ain't a match like yours & mine  
Believe it or not, we've got the perfect combination

You like the dances I like to do  
Golly gee, how we agree  
You like a quiet date for 2  
Yes indeed, you're just my speed  
I've seen the proof; here's my conclusion  
Let's fall in love; that's the solution  
'Cause we're just 2 of a kind  
Can't you see that we're just 2 of a kind

We were tailor-made for each other  
So come on baby, let's get together  
'Cause we're just 2 of a kind  
...& fade
