

## Mary-Kate And Ashley "Butterflies In Your Stomach"

Visit "[Butterflies In Your Stomach](#)" on [MotoLyrics.com](https://MotoLyrics.com)

when you got butterflies in your stomach,  
and a desert in your mouth  
your body's signifying it wants a way out.  
cuz you're scared that might mess up,  
afraid that you might goof,  
so when you are feeling raelly nervous,here's  
what you have got to do

\*chorus\*

just breath a little deeper, sip a little water  
know that you'll be great, everybody's gonna  
love you  
specially if you smile,when you step out on  
that stage

ooh yeah,ooh yeah,ooh yeah,ooh yeah

now there's something that you must know  
since you've done this all before  
every fear is going to leave you when you  
step on that dance floor  
cuz you're doin what you love most and  
practiced for,for years  
and if you're dancing from your heart, then  
you will leave them all in tears

\*chorus\* (x2)
