chorus

everybody come down to the mall, Yeah!
it's a party come on
instant party when you're at the mall, Yeah!
everybody come on

just add you into the mix, and we're all set
to go
friends and fashion, food and fun
you know we told you so

chorus

there's some fun for everyone, tons of stuff to
see
scores of stores to choose from, anything you
see

here you'll meet all kinds of people
from near and far away
rides to ride, new things to try and lots of
games to play

hey everybody, come out and dance
put your hands together for the band
yeah...that's right...sing along

chorus

we can do almost anything like run around
the place
sit and watch the people go by making funny
faces
